About **ELEVATE** Course

NEXT IAS **Elevate** is a **2-year comprehensive program** that gives young aspirants a decisive head start in their UPSC journey. In the first phase, **Elevate** focuses on **building strong concepts, developing civil servant like aptitude, and shaping personality** through **academic learning, guided practice, and confidence-building activities**. In the second phase, the emphasis shifts to **in-depth coverage of the UPSC syllabus**, sharpening **both subjective and objective** problem solving skills along with extensive exam-oriented preparation with the support of **academic coaches**.

Elevate is not just about covering the syllabus, it is about **cultivating discipline, analytical ability, communication skills, and leadership qualities**. By combining structured learning, mentorship, and testing with personal growth and confidence-building.

Students don't just prepare for an exam, but prepare to lead.

Message to **Students**

Dear Students,

Every dream begins with a decision to start. **Elevate** is that decision. Not just a course, but a two-year commitment to transform yourself into a disciplined, confident, and future-ready civil servant.

Over these 24 months, you won't just cover a syllabus; you will grow through a structured path that moves step by step, from building a rock-solid foundation in basics to mastering the vast Civil Services syllabus with precision.

Phases of **ELEVATE** Course

Phase 1 (Year 1)

Phase 1 - The First Step

Every great journey begins with a **first step**. Phase 1 of **Elevate** is about **building strong roots, developing the basic concepts, sharpening aptitude, and shaping personality**. This year is not about rushing; it is about laying the groundwork that will carry students through the challenges ahead.

With a balanced mix of **basic concept learning, practice, and personality development**, Phase 1 ensures that aspirants grow not just as students, but as **confident, disciplined individuals ready to rise** higher.

Every summit stands on its first step

The Bamboo Story

In the first few years, a **bamboo plant** shows almost no growth above the ground. But beneath the soil, it is quietly **spreading deep, powerful roots**. Then, when the time is right, it shoots up, rising more than 80 feet in just weeks.

That is exactly **how Phase 1 works**. Year 1 **strengthens the academic foundation**, through **systematic classes, rigorous assessments, and guided practice**, while also **nurturing discipline, clarity, confidence, and personality**. These roots in curriculum and character make the visible leaps of success in Year 2 and beyond both faster and stronger

Strong roots first. Rapid growth next.

"The taller the tree, the deeper the roots."

Amongst the best institute for holistic prep for civil services under one roof. My understanding of subjects has enriched since joining, also teachers help you navigate the humongous syllabus by mentoring personally if approachable.
Not just teachers the support staff is also cordial and effectively addresses my mundane queries regarding the batch, here I would personally mention Diwakar sir at the Frontdesk who has helped me immensely.

Our Legacy

25 Years of Excellence

NEXT IAS produced its first **AIR-1** in UPSC-CSE, with **Mr. Aditya Srivastava** topping the CSE 2023 examination. Students from various courses at NEXT IAS secured **633+ selections out of 1,016 vacancies**.

Several well-known faculty members from the CSE fraternity joined NEXT IAS. We remained committed to our vision of providing **quality teaching** and creating a home away from **home for our students**. The journey gained momentum, laying a strong foundation for the years to come.

MADE EASY contributed to **81% selections of the total ESE vacancies**, securing the 1st, 2nd and 3rd ranks in all 4 streams. Continuing its legacy of providing quality education across country, we launched our new centres in Pune and Kolkata. We got the prestigious "National Education Excellence Award" by the then AICTE Chairman, **Mr. Anil Sahasrabudhe**.

MADE EASY contributed to **51% of the total ESE selections**, with its students securing the first rank in both GATE and ESE examinations. A new centre was also established in Lucknow.

Mr. B. Singh, an alumnus of IIT BHU Varanasi, left his prestigious Indian Engineering Services (IES) job and laid the foundation of the **MADE EASY Group** with just 7 students, starting in a small room in Ber Sarai, New Delhi, to prepare for the UPSC Engineering Services Exam.

We are privileged to have achieved outstanding results in CSE 2024, starting with **AIR-1**. Students from our Foundation and Advanced Courses, along with the Mentorship Program, Test Series and IGP created history by securing **600+ selections** in CSE 2024.

Our first GS Foundation Course student made a remarkable mark in the UPSC-CSE—none other than **Dr. Mayur Hazarika**, who made us proud by securing **AIR-5 in CSE 2022**. With **7 ranks in the Top 10** and **71 in the Top 100**, NEXT IAS contributed **624 selections out of 933 vacancies** in CSE 2022. All these students were enrolled in at least one course at NEXT IAS.

NEXT IAS was founded to cater to the growing aspirations of young minds aiming to become civil servants and serve the nation. Meanwhile, MADE EASY achieved remarkable success this year with **91% of the total selections in ESE** along with astounding results in the GATE exam. This year also marked the laying of the foundation of **MADE EASY School**, a progressive K-12 school.

MADE EASY contributed to **62% of the total ESE selections** and once again produced toppers in ESE and GATE exams across many streams. The prestigious "**Captains of Industry Award**" was conferred upon **Mr. B. Singh** by the then Hon'ble Chief Minister of Madhya Pradesh, **Shri Shivraj Singh Chouhan**.

MADE EASY launched a new vertical with the establishment of **MADE EASY Publications**, a publishing house catering to the needs of aspirants preparing for various competitive examinations. Today, the publication offers more than 200 titles for exams such as CSE, IFOs, ESE, GATE, PSUs, ISRO, DRDO, and various state-level exams.
